

22nd ESGENA Conference

20-22 October 2018

Hosted by the Austrian Society of Endoscopy Nurses and Associates (IVEPA)

In Conjunction with the
26th United European Gastroenterology Week

In Vienna, Austria

Further Information:

www.ueg.eu/week/esgena/

Important Deadlines

Submitting Abstracts	May 31, 2018
Early registration	May 17, 2018
Late Registration	September 6, 2018

Word of Welcome

Dear colleagues,

On behalf of ESGENA, the Austrian Society of Endoscopy Nurses and Associates (IVEPA) it is our great pleasure to invite you to the 22nd ESGENA Conference which will be held during the 26th United European Gastroenterology Week, October 20-22, 2018 in Vienna, Austria.

Why should you attend the ESGENA Conference? The ESGENA conference is a unique venue for meeting colleagues from different countries and expanding your professional network. The relaxed atmosphere supports collegial exchange and helps to overcome language barriers. The ESGENA conference includes state-of-the-art lectures, free papers & posters, lunch sessions, workshops with hands-on training and live transmissions. Last breaking news about new trends and developments as well as presentations about interesting projects and studies in Gastroenterology and Endoscopy ensure a truly global context. The exchange with nurses from all over the world combined with the opportunity to attend the medical programme of the UEG Week ensures that the ESGENA conference will be an exceptional educational event.

Following past meetings in 2008, 2014 and 2016, this is the fourth time that the medical and nursing community of Gastroenterology and Endoscopy will meet in Vienna. The city on the Danube is known not only for the Prater, the Hofburg and delicious pastries, but also for great experiences with and without adrenalin factor.

Enjoy the extraordinary Austrian hospitality, combined with the multicultural atmosphere of an international meeting.

We hope to welcome you to the 22nd ESGENA Conference and 26th UEG Week in October 2018 in Vienna
Marjon de Pater, President of ESGENA
Dagmar Zrzavy, President of IVEPA

Venue

Austria Center Vienna
Bruno-Kreisky-Platz 1
1220 Vienna, Austria

Registration fees for the ESGENA conference

Registration	Early	Late	Onsite
	By May 17, 2018	By September 6, 2018	After September 6, 2018 and onsite in Vienna
Fee	€ 185,-	€ 200,-	€ 250,-

- It is essential that nurses bring a copy of their professional standing or similar identification to the conference registration desk in order to prove their status (confirmation by employer, proof of education or registration as a nurse).
- If you would like to register up to 10 delegates, please register each person individually.

Registration fee includes:

- Admission to all ESGENA scientific sessions and workshops (Saturday - Monday)
- Admission to the UEG Week scientific sessions (Saturday - Monday)
- Admission to the UEG Week poster and technical exhibition (Monday)
- Admission to the ESGE Learning Area (Saturday - Monday)
- Admission to the Surgical Learning Area (Saturday – Monday)
- Admission to the Ultrasound Learning Area (Saturday - Monday)
- Unlimited use of Vienna public transportation system (ticket is valid from Saturday through Monday)
- Congress materials (final programme, ESGENA abstract book, etc.) *
- * Lunch and coffee are not included in the registration fee. UEG offers a certain amount of catering during the breaks on a first-come-first-served basis.
- Nurses who want to attend the UEG Week on Tuesday and Wednesday are asked to contact the ESGENA Secretariat (info@esgena.org)

ESGENA Programme Overview

Saturday, October 20, 2018

ESGENA Programm

Saturday, 20 Oct 2018

11:30-13:00 Room E2

ESGENA Opening Session: Quality makes the difference

Chairs	Marjon de Pater (ESGENA President) Wendy Waagenes (ESGENA Vice President)
11:30-11:45	Welcome Marjon de Pater (ESGENA President), The Netherlands
11:45-12:15	The value of nursing in Endoscopy and Gastroenterology Alison Leary, United Kingdom
12:15-12:35	Performance measures for endoscopy services: The ESGE Quality Improvement Initiative Roland Valori, United Kingdom
12:35-12:55	Delegation of tasks to unregistered staff - what - when - how - why Ulrike Beilenhoff, Germany
12:55-13:00	Discussions

14:00-15:30 Room M

Special Bronchoscopy Session I

Chairs	Björn Fehrke, Switzerland Michael Ortmann, Switzerland
14:00-14:20	Electromagnetic Navigation, periphere and central EBUS- Tools of diagnostic and therapeutic procedures- Christophe von Garnier, Switzerland
14:30-14:40	Endoscopic Lung Volume Reduction (ELVR) NN
14:40-15:00	NIV- Not Invasive Ventilation – what can Gastroenterology learn from Bronchoscopy NN
15:00-15:15	The introduction of capnography monitoring in endoscopy Elaine Egan, Ireland
15:15-15:30	Continuous tracking, control and safety of pulmonary patients through nursing documentation Ana Mustak, Croatia

16:00-17:30 Room M

Special Bronchoscopy Session II

	This workshop is organised by ESGENA and OLYMPUS EUROPA SE & CO. KG
Chairs	Björn Fehrke, Switzerland Michael Ortmann, Switzerland
16:00-16:20	Management of bronchial haemoptysis and desaturation - or how not to panic when it goes red! Michael Ortmann, Switzerland
16:20-17:30	The workshop will offer the opportunity to improve procedure skills in bronchoscopy with the help of dedicated hands-on training on bio simulators under the supervision of highly experienced tutors. Participants will be able to perform the following techniques in diagnostic and therapeutic procedures in bronchoscopy:

- Bronchoalveolar lavage, cytology brushing, biopsy taking , TBNA for cytology and histology sampling
 - Endoscopic Lung Volume Reduction(ELVR)
 - Management of bronchial bleeding
- Number of participants: limited to 40 persons

**14:00-15:30
Lounge 7** **Workshop 1: Electrosurgery in Endoscopy: How to Make it Safe and Effective?**

This workshop is organised by **OLYMPUS EUROPA SE & CO. KG**

Chairs NN
NN

Aims & Content This workshop is all about creating confidence using HF in endoscopy. You will learn about different endoscopic cases and their specific procedures. In addition, there will be tips and tricks useful for the nurse's daily work. During this workshop, we will offer the opportunity to improve your skills of choosing the right HF settings on your generator for the best outcome of the procedure. It includes a hands-on training to experience the differences of HF settings under supervision and support of highly experienced tutors

After the theoretical part, an intensive hands-on will follow, where you may gain further knowledge about the effects of HF on tissue.

**14:00-15:30
Lounge 8** **Workshop 2: ERCP**

This workshop is organised by **Boston Scientific**

Chairs NN
NN

Aims & Content The role of the nurse in successful ERCP is essential and handling of the devices is one part of it. Practise ERCP procedures step by step at different hands-on stations. Exchange experience and ask questions to renowned experts to improve your skills set and confidence. The participants will be able to train the following techniques under the supervision of experienced tutors:

- Cannulation, device exchange with long and short guidewire techniques
- Stent placement
- Lithotripsy: standard and emergency cases
- Balloon dilation

**14:00-15:30
Room 1.61/1.62** **Workshop 3: Health and safety in endoscope reprocessing**

This workshop is organised by **Chemische Werke Dr. Weigert** and **Wassenburg (to be confirmed)**

Chairs

Aims & Content The individual steps for a safe reprocessing of endoscopes are defined by national and international recommendations. Different active substances and processes have been established for manual and automated reprocessing of endoscopes
This part of the workshop will answer the following questions:

- What are the different active substances for manual and WD (washer disinfectant) reprocessing?
- How good is the cleaning performance of different active substances and how is it tested?
- What impact do different process chemicals have on treatment processes?

14:00-15:30
ESGE Learning
Centre

Workshop 4: Hands-on training on bio simulators

This workshop is organised by **ESGENA**

Chairs

Eric Pflimlin, Switzerland

Aims & Content

Hands-on training on bio simulators (pig models) under the supervision of highly experienced tutors: Participants will have the opportunity to perform endoscopic techniques on the following topics:

- OGD with Injection techniques, Ligation, Clipping, APC
- Colonoscopy with Polypectomy, EMR and APC
- ERCP with stone extraction and stenting

As participation will be limited, registration will be treated on a first-come-first-served basis: Tickets will be available onsite only – at the entrance of the ESGE Learning Area.

16:00-17:30
Lounge 7

Workshop 5: More than nice to know – Damage prevention & Correct endoscope handling

This workshop is organised by **OLYMPUS EUROPA SE & CO. KG**

Chair

Holger Biering, Germany
 Ulrike Beilenhoff, Germany

Aims & Content

The spectrum of gastrointestinal endoscopic treatments has significantly expanded during recent years, also the number of endoscopic examination has increased. This is in conflict with economic factors for medical equipment, which will be used for frequently during longer periods. Consequently this leads situations with increased mechanical and chemical stress also to endoscopes.

Within this triangle of forces, the need for a variety of checks and balances becomes obvious.

This workshop is intended to:

- give technical inside to endoscope material considerations and material stress aspects
- visualise mechanical and hygiene risk factors
- inform about practical aspects regarding damage prevention
- allow workshop participants to touch and feel mechanical and stress aspects an endoscopes
- get tips about suitable handling of endoscopes

16:00-17:30
Lounge 8

Workshop 6: Electrosurgery – Prevention of complication

This workshop is organised by **ERBE Elektromedizin GmbH**

Chairs

Jens Bettin, Germany
 Marjon de Pater, The Netherlands

Aims & Content

Electrosurgery offers the possibility of pressure-free and precise cutting and at the same time control of bleeding during endoscopic resection techniques. With argon plasma coagulation tissue can be devitalized. The water-jet surgery provides additional options for resection. The aim of the workshop is:

- To update on principles of electrosurgery and relevant safety measures
- To demonstrate different settings for different applications like Polypectomy, EMR, ESD, Papilloectomy, etc:

in order to achieve max safety and to prevent adverse events and complications

16:00-17:30 Room 1.61/1.62	Workshop 7: The influence of endoscopes reprocessing on successful infection prevention - a risk assessment of the individual processing steps
---------------------------------------	---

This workshop is organised by **CANTEL** and **BHT**

Chairs NN
NN

Aims & Content The aim of the workshop is to help you optimise and risk assess your endoscope reprocessing workflow. The workshop will focus on infection prevention, increasing efficiency, improving patient safety and reducing risk at the 4 key stages of an endoscopes journey:

- Procedure
- Manual pre-cleaning
- Reprocessing in the AER
- Drying and Storage

16:00-17:30 ESGE Learning Centre	Workshop 8: Hands-on training on bio simulators
---	--

This workshop is organised by **ESGENA**

Chairs Eric Pflimlin, Switzerland

Aims & Content Hands-on training on bio simulators (pig models) under the supervision of highly experienced tutors: Participants will have the opportunity to perform endoscopic techniques on the following topics:

- OGD with Injection techniques, Ligation, Clipping, APC
- Colonoscopy with Polypectomy, EMR and APC
- ERCP with stone extraction and stenting

As participation will be limited, registration will be treated on a first-come-first-served basis: Tickets will be available onsite only – at the entrance of the ESGE Learning Area.

ESGENA Programm

Sunday, 21 Oct 2018

09:00-10:30 Room G

ESGENA Session 1 : Free Paper

Chairs

Irene Dunkley, United Kingdom
Siiri Maasen, Estonia
Wendy Waagenes, Denmark
Gerlinde Weilguny, Austria

09:00–09:15

National training programme for sedation in GI Endoscopy – 9 years experience

Ulrike Beilenhoff, Germany

09:15-09:30

The 7-Month Journey from Endoscopy Nurse to Nurse Endoscopist

Yulrich Louie dela Cruz, Irene Dunkley, United Kingdom

09:30-09:45

Process optimization in endoscopy by implementing a checklist for patient safety

Silke Bichel, Germany

09:45-10:00

Access to nursing care for people with autism with special emphasis on preparation for endoscopic examination

Brozičević Katja, University Hospital Centre Rijeka, Department of gastroenterology, Rijeka, Croatia

10:00-10:15

Analysis of the awareness of population about risk factors and methods of colorectal cancer prevention

Nataliya Shandarovska,, Ukraine

10:15-10:30

Microbiological surveillance of the endoscopes: experience of Endoscopy Unit of the University Campus of Rome

B. Colombo, M.L. Candela, A. Minciullo, E. Portalino, G. Bencivenga, F. Antonelli, A. Conti, S. Angeletti, F.M. Di Matteo, Italy

09:00-10:30 Room K

ESGENA Session 2 : Quality starts with building and reconstruction

Chairs

Tatjana Gjerek, Slovenia
Juliane Bra, Austria

09:00-09:20

Restructuring of an Endoscopy Unit as an outcome of a work environment report

Tine Dichmann , Denmark

09:20-09:40

Building a new hospital – using the chances for endoscopy

Jan-Werner Poley, The Netherlands

09:40-10:00

Safety systems in endoscopy – How to prevent steeling of Endoscopes

Ute Pfeifer, Germany

10:00-10:20

Transfer of reprocessing of the endoscopes from the endoscopy department to the department for central sterilization - everyday life

Eric Pflimlin, Switzerland

10:20-10:30

Discussion

**10:30-11:00
ESGENA
Poster Area**
ESGENA Poster Round I

Poster round committee
Jayne Tillett, UK
Enriqueta Hernandez-Soto, Spain
Anita Jorgensen, Norway
Fanny Durand, France
Therese Schober, Austria

Education

- | | | |
|----|---|-----|
| 2 | Nursing status in the Italian Digestive Endoscopy Units: A national survey by ANOTE-ANIGEA.
Alessandra Guarini, Elena Rossetti, Pierangelo Simonelli, Teresa Iannone, Daniela Carretto, Antonella Giaquinto, Giorgio Iori, Monia Valdinoc, Cinzia Rivara, Italy | P-1 |
| 5 | Life in Germany - Integration in an Endoscopy unit
Jorgert Kishta. Urte Stahlberg, Germany | P-2 |
| 21 | Innovations in the Gastroenterology Nurses Training in Israel
Yuri Gurriel, Israel | P-3 |
| 33 | Minfulness as a challenge in today's nursing
<u>Tina Kamenšek</u> , Darja Thaler, Slovenia | P-4 |

**11:00-12:30
Room G**
ESGENA Session 3 : Education

- Chairs**
Devika Ghosh, Ireland
Denise Schäfer, Austria
- | | |
|-------------|---|
| 11:00-11:20 | ESGENA Statement: Quality indicators for patient care in Endoscopy
Jadranka Brljak, Croatia |
| 11:20-11:40 | Self-directed learning – how to implement in daily routine?
Fanny Durand, France |
| 11:40-12:00 | Mentorship and training to retain and sustain the endoscopy workforce
Laura Dwyer, United Kingdom |
| 12:00-12:15 | ESGENA Curriculum on reprocessing of flexible endoscopes
Ulrike Beilenhoff, Germany |
| 12:15-12:30 | Major Sponsor presentation (
NN |

11:00-12:30 Room K	SESSION 4: Management – safety first
-------------------------------	---

Chairs	Mario Gazic, Croatia Joan Skovlund Christensen, Denmark
11:00-11:20	Risk management and quality control in Endoscopy – an analysis Patricia Burga, Italy
11:20-11:40	24 hours service in Endoscopy – Organisation, quality indicators and limitations Marjon de Pater, The Netherlands
11:40-12:00	ESGENA Statement: Sign-in , team time out and sign out – safety netting in Endoscopy Ulrike Beilenhoff, Germany
12:00-12:20	Competency development and team work – the basis for patient safety Camilla Euphrosyne Leidcker, Denmark
12:20-12:30	Discussions

11:00-12:30 ESGE Learning Centre	Workshop 9: Hands-on training on bio simulators
---	--

This workshop is organised by ESGENA

Chairs	Eric Pflimlin, Switzerland Michael Ortmann, Switzerland
Aims & Content	Hands-on training on bio simulators (pig models) under the supervision of highly experienced tutors: Participants will have the opportunity to perform endoscopic techniques on the following topics: <ul style="list-style-type: none"> • OGD with Injection techniques, Ligation, Clipping, APC • Colonoscopy with Polypectomy, EMR and APC • ERCP with stone extraction and stenting As participation will be limited, registration will be treated on a first-come-first-served basis: Tickets will be available onsite only – at the entrance of the ESGE Learning Area.

12:30-15:00 Room G	Lunch Session 1: Endoscopic techniques
-------------------------------	---

Chairs	Silvia Lahey, The Netherlands, Daliborka Jelisavak, Bosnia Herzegovina
12.30-12.40	Karl Storz
12.40-12.50	Microtech
12.50-13.00	ERCP Olympus
13.00-13.10	Ovesco
13.10-13.20	Cook Medical

13.10-13.20 Boston Scientific
13:30-15:00 Hands-on training with the companies

12:30-15:00 Room K Lunch Session 2: Hygiene & infection control

Chairs Björn Fehrke, Switzerland,
Päivi Muranen, Finland

12.30-12.40 CBC

12.40-12.50 Cantel

12.50-13.00 Fujifilm

13.00-13.10 **Steelco enhanced solutions for "duodenoscope & echoendoscope" reprocessing"**
Monica Menin Ostani, Italy

14:00-15:30
ESGE Learning
Centre

Workshop 10: Hands-on training on bio simulators

This workshop is organised by ESGENA

Chairs

Eric Pflimlin, Switzerland
Michael Ortmann, Switzerland

Aims & Content

Hands-on training on bio simulators (pig models) under the supervision of highly experienced tutors: Participants will have the opportunity to perform endoscopic techniques on the following topics:

- OGD with Injection techniques, Ligation, Clipping, APC
- Colonoscopy with Polypectomy, EMR and APC

As participation will be limited, registration will be treated on a first-come-first-served basis: Tickets will be available onsite only – at the entrance of the ESGE Learning Area.

15:00-16:30
Room G

Hygiene – points of discussion

Chairs

Jadranka Brljak, Croatia;
Jean Francis Rey, France

15:00-15:20

High prevalence of digestive bacteria in duodenoscopes – how does a national survey influence daily practice

Margret Vos, The Netherlands

15:20-15:40

Endoscopy related infections – is sterilisation an answer?

Helen Griffiths, United Kingdom

15:40-16:00

Biofilm formation and prevention - a challenge with flexible endoscopes

Holger Biering, Germany

16:00-16:20

Track and trace – Documentation and follow-up of endoscope reprocessing, repair and maintenance

Mikael Mochet, France

16:20-16:30

Discussion

15:00-16:30
Room K **SESSION 6: Inflammatory Bowel Disease (IBD)**

Chairs	Irene Dunkley, United Kingdom Ingrid Karström, Sweden
15:00-15:20	Monitoring of IBD patients – what is essential? Irene Dunkley, United Kingdom
15:20-15:40	IBD – Passport – a tool for information and communication in daily live and for travelling Key Greveson, United Kingdom
15:40-16:00	Iron-deficiency, anaemia and fatigue in IBD Palle Bager, Denmark
16:00-16:15	N-ECCO Continuing education – what can Endoscopy learn? Palle Bager, Denmark
16:15-16:30	Major Sponsor presentation

17:00-18:00
Room G **SESSION 7: Present & Future in GI Endoscopy**

Chairs	Marjon de Pater, The Netherlands Martina Fellinghauser, Austria
17:00-17:20	Guided tour through the wonderful world of the irritable bowel Guy Boeckxstaens, Belgium
17:20-17:40	New aspects of microbiome therapy Christoph Högenauer, Graz
17:40-17:55	Best Free Paper and Best Poster Awards The winner of the best free papers – oral presentation and the best poster presentations - will be announced. Presenting authors are requested to attend this session. PENTAX Medical supports the ESGENA Free Paper and Poster Award
17:55-18:00	Invitation to Barcelona 2019 Enriqueta Hernandez Soto, Spain

ESGENA at UEG Week

Monday, 22 Oct 2018

Please note:

- With their ESGENA badge, ESGENA participants have full access to the UEG Week on Monday.
- Nurses who want to attend the UEG Week on Tuesday and Wednesday are asked to contact the ESGENA Secretariat (info@esgena.org)

UEG Week Opening Session

The Opening Session is held on Monday morning and includes official speeches and the opening of the core scientific programme with a mixture of invited speakers and presentations of the best submitted abstracts. UEG awards the UEG Research Prize, the UEG Lifetime Achievement Award and the UEG Journal Best Paper Award at the Opening Session

Live Endoscopy

Live Endoscopy is planned for Tuesday, October 23, 2018
Top international experts demonstrate cutting-edge techniques alongside basic procedures transmitted directly to the auditorium. The use of multiple parallel cases and experienced chairs ensure interactive learning without unnecessary gaps.

Translational/Basic Science Pathway

These sessions include topics that will potentially affect clinical practice within the near future, thereby being attractive for both basic/translational scientists and clinicians:

- Barrier function and GI disease
- Novel technical developments in basic science
- Biomarkers and individual medicine .

Today's Science; Tomorrow's Medicine (TSTM)

Top class scientists have been invited to discuss how the current stage of knowledge is ready to be used in clinical practice, and to establish strategies to foster further progression of knowledge in this area. The Today's Science; Tomorrow's Medicine symposium is a combination of both, invited sessions featuring the world's top scientists and free paper sessions where work is presented by young and established researchers.

ESGENA delegate participate in UEG Sessions

Monday and Tuesday, 22-23 Oct 2018

Symposia

Interdisciplinary symposia cover new approaches to diagnosis and treatment, and place major emphasis on innovative, technical advances in the non-invasive management of gastrointestinal and hepatic disorders and translational/basic science, including state-of-the-art lectures. Here are some examples:

- General
 - Women in interventional endoscopy
 - Mistakes in
 - Endoscopic management of complications after upper GI surgery
 - Quality in Endoscopy
- Update on
 - eosinophilic esophagitis (EoE)
 - hereditary colorectal cancer syndromes
 - GI Bleeding : The basics from experts
- Therapy update:
 - H. Pylori Eradication
 - Barrett's oesophagus
 - Colorectal Cancer
 - Acute Pancreatitis
 - Ulcerative Colitis
 - Multimodality treatment of upper GI cancer
 - Canulation access techniques in ERCP
- Crash course:
 - Non bleeding upper GI emergencies
 - When the liver starts talking
- From guidelines to clinical practice:
 - Faecal incontinence
 - Crohn's disease
 - Viral hepatitis
 - Barrett's oesophagus
 - Cystic pancreatic lesions
- Functional disorders: is testing necessary ?
- New metrics for colonoscopy
- Endoscopic resection of polyps
- Multidisciplinary management of local advanced rectal cancer
- Screening of CRC across Europe
- Constipation
- Future therapies in IBD Post-operative recurrence of Crohn's disease
- Luminal Crohn's disease and surgery
- Biliary stones: diagnosis and therapeutic management
- Early management of acute pancreatitis
- Alcoholic liver disease

Free Paper Sessions

The most important feature of UEG Week is the science and this is recognised in the core programme with a large number of Free Paper Sessions devoted to original research, and an impressive number of Mixed Sessions where invited talks and free paper presentations alternate. Both of these sessions allow lively discussions about the best original research submitted to UEG Week and this is your opportunity to hear about GI and liver research in Europe and worldwide before it is published.

ESGENA delegate participate in UEG Sessions

Monday and Tuesday, 22-23 Oct 2018

Case-based discussion

For each of these sessions we have invited four experts who will discuss a common clinical situation based on a case presentation. There is no pre-booking required but come early as there are limited seats which will be filled on a first-come, first-served basis.

- Biliary pancreatitis
- Oesophageal motility disorders and dysphagia: How to diagnose? How to treat?
- Anal pains and bleeding: Proctology
- Diarrhoea and fever

Scientific Centre: Poster Exhibition / Poster Champ Sessions / Posters in the Spotlight

A place where all possibilities to present an abstract are featuring the UEG Week Hotspot, the E-Poster Terminals as well as the poster exhibition.

Poster Exhibition / E-Posters

Poster Sessions feature a very spacious room layout and poster format. Printed posters are displayed and changed daily. The discussion of clinical cases during daily poster sessions offer the presenters relevant discussions of difficult clinical problems.

E-Posters allow all poster presenters to include interactive media files, such as radiology images, endoscopy videos, etc. and to show a video together with the E-Poster. E-Posters are accessible on the poster terminals from Monday until Wednesday.

Poster Champ Sessions

2-minutes presentations of the highest scoring posters will be given at the E-Poster terminals in the poster exhibition, followed by 3-minutes Q&As from the chairs. The Poster Champ of each session will be awarded during the official award ceremony each day.

Posters in the Spotlight

The Posters in the Spotlight are an excellent platform for in-depth scientific exchange with faculty and peers in a relaxed atmosphere and present an ideal opportunity to attend highly interactive and expert-led poster presentations.
